Voted: Freda – yes, Doheny – yes, Fontana – yes

Selectman's Overview -

OPERATIONAL
Building Department - Time Line of Events:

- 7/28/09 – Letter to previous administration
- 8/19/09 – Another letter to previous administration (never divulged to the public or the Public Works Dept.)
- Week of 11/15/09 – Transition meeting between me and previous First Selectman

- 6/10-10/10 – Forensic Audit Process

We are reviewing all systems in our Building Department to include:

- All building permits be pre-numbered and the sequence be accounted for on a period basis. The accountability should include the status of the permit (open, closed, sent to assessor, etc)
- All building permits be monitored with respect to the date issued and the date expired to ensure that expired permits are renewed in accordance with the Town's building permit regulations.
- The Town's construction value and permit fee schedule to be updated to clearly identify the fees due for hot tubs and the rate for square footage that is "storage space" vs. living space.
- The Town to develop and implement a standard, electronic based form (Excel) to calculate the building permit fee due. Certain fields may be locked to ensure only current approved rates are used.
- Form to include a place to document the preparer, review and approval and recalculation of permit fee by someone other than the person who prepared it.
- Revision of building permit application to require the applicant to expressly confirm whether there are porches or decks as part of the structure.
- The Town will develop and implement written procedures for the procession of all building permits.
    - The written procedure may address such items as:
        - A check list for required components of the file
        - A standard filing location
        - Policy for retention of building plans
        - Building permit refund policy
        - Standard Forms
- Requirements for approvals
- Building Official responsibility and use of judgment/discretion
