

Fred Edelstein said he is not concerned where the fuel is stored because they must get P&Z and ZBA approval before they can move it. He feels that once the fuel is moved, CY wpm't have anything else to do with the town. He thinks the town should assess the storage casts and have CY pay the town taxes for them. CY has no obligation to move the fuel. If CY leaves the fuel in the pool storage, it will cost them about 8 million a year to maintain them. If they use the dry Cask storage, it will cost about 2 million a year. He feels CY wants to move them to save the 6 million per year. The Dry Cask system has not been formally approved yet. There would be 43 casks stored here. They must have security and be monitored 24 hours a day. Fred feels that this is an economic issue and that the town should not accept CY's opinion only. NRC said that CY must have their plan in place before they get a license.

There were many people who spoke and who asked intelligent questions. The townspeople feel that we need to know more information about the system and wants the Selectmen to keep track of the activity and keep the townspeople informed.

The meeting was duly adjourned at 10:45 P.M.
