We have contily that the Moderator thereafter opened the doors concealing the candidate and question counters of those machines not equipped with a device capable of producing a clear printed record, giving the election officials present a full view of the counter numbers of such machines. The counting compartments of those machines againped with a device capable of producing a clear printed record were not opened; and the Moderator gave the election afficials present a full view of the printed record of the counter numbers of such machines.

Thus the Moderator read and announced to the Checkers in distinct transs, in the order of the offices as their rities are arranged on the machine, the name of rach candidate, the designating number and letter of each candidate's counter and the machine were registered on such counter; and that the Moderator also, in the same manner, assummed the vose for each question* voted on.

That the number of votes received for each candidate and question voted on, and the number received by each person for whom write-in ballots* were cast, were recorded by each Checker in figures on the fully sheets furnished; and that surfu sally sheets, having been compared and found to agree, are correct to the best of our knowledge and belief.

That the result of the votes cast, including the absence ballot vote furnished the Moderator to the the Absence Ballot Counters, where applicable,** were in the same manner publicity amounced by the Moderator; and that while such announcement was being made, ample opportunity was given to any perion lawfully present to compare the results so announced with the counter numbers of the machine, whether by viewing the opened counting compartments or by viewing the printed record, depending upon the merchant used by the election officials for announcing and recording the vote.

We further certify that a duplicate of this Moderator's Return, properly signed, was placed inside one of the voting manifers to be delivered with a duplicate of this Moderator's Return
