CERTIFICATE NO. 2

TO BE COMPLETED AND SIGNED BY THE ELECTION OFFICIALS INDICATED BELOW, AFTER THE CLOSING OF THE POLLS.

We, the undersigned Election Officials, hereby certify that as soon as the polls were closed the voting machines were locked against voting and sealed; and the number on the machine seal, the protective counter, and the public counter for the voting machines, hereinafter designated by machine number, were as follows:

h. Machine No.	i. Number on Machine Seal After Polls Close	j. Number on Protective Counter After Polls Close	k. Number on Public Counter After Polls Close
118955	672363	19147	362
145500	672887	18943	73
153367	672813	17461	352
169850	672888	20356	322
171601	672874	25308	302
		TOTAL	/4// (from Column k.)

We further certify that the Moderator thereafter opened the doors concealing the candidate and question counters of those machines not equipped with a device capable of producing a clear printed record, giving the election officials present a full view of the counter numbers of such machines. The counting compartments of those machines equipped with a device capable of producing a clear printed record were not opened; and the Moderator gave the election officials present a full view of the printed record of the counter numbers of such machines.

That the Moderator read and announced to the Checkers in distinct tones, in the order of

That the Moderator read and announced to the Checkers in distinct tones, in the order of the offices as their titles are arranged on the machine, the name of each candidate, the designating number and letter of each candidate's counter and the machine vote registered on such counter; and that the Moderator also, in the same manner, announced the vote for each question voted on.

That the number of votes received for each candidate and question voted on, and the number received by each person for whom write-in ballots were cast, were recorded by each Checker in figures on the tally sheets furnished; and that such tally sheets, having been compared and found to agree, are correct to the best of our knowledge and belief.

That the result of the votes cast, including the absentee ballot vote furnished the Moderator by the Absentee Ballot Counters, where applicable, ** were in the same manner publicly announced by the Moderator; and that while such announcement was being made, ample opportunity was given to any person lawfully present to compare the results so announced with the counter numbers of the machine, whether by viewing the opened counting compartments or by viewing the printed record, depending upon the method used by the election officials for announcing and recording the vote.

We further certify that a duplicate of this Moderator's Return, properly signed, was placed inside one of the voting machines, after which the doors concealing the counting compartments of the machines were locked, and the keys properly labeled with the number of the machine, which keys were then placed in the custody of the Moderator to be delivered with a duplicate of this Moderator's Return, properly signed, to the Municipal Clerk.

We further certify the following numbers:

Total number of names on the official check list. m. Total number of names checked on the official check list as having voted by absentee ballot.*** Total number of names checked on the official check list as having voted by machine (in person)*** Total number of names checked on the official check list as having voted. (m+n).

> ant Registrar Registrar, Deputy or Assistant Registrar Checker Dallali

*Not applicable in a primary.

Where central counting designated, the head moderator and not the polling place moderator or central counting moderator is responsible for publicly declaring the result of the absentee vote.

***Not applicable to polling place officials if central counting designated — polling place officials record "0".

If the number checked on the official check list as having voted by machine (in person) does not equal the total number on the public counter after polls close — the total on the bottom of column k. — (less the total from column g., if applicable,) attach a memorandum explaining the discrepancy.

			(from Column k.)

We further certify that the Moderator thereafter opened the doors concealing the candidate and question counters of those machines not equipped with a device capable of producing a clear printed record, giving the election officials present a full view of the counter numbers of such machines. The counting compartments of those machines equipped with a device capable of producing a clear printed record were not opened; and the Moderator gave the election officials present a full view of the printed record of the counter numbers of such machines.

That the Moderator read and announced to the Checkers in distinct tones, in the order of the offices as their titles are arranged on the machine, the name of each candidate, the designating number and letter of each candidate's counter and the machine vote registered on such counter; and that the Moderator also, in the same manner, announced the vote for each question* voted on.

and that the Moderator also, in the same manner, announced the vote for each question voted on.

That the number of votes received for each candidate and question voted on, and the number received by each person for whom write-in ballots were cast, were recorded by each Checker in figures on the tally sheets furnished; and that such tally sheets, having been compared and found to agree, are correct to the best of our knowledge and belief.

That the result of the votes cast, including the absentee ballot vote furnished the Moderator by the Absentee Ballot Counters, where applicable, were in the same manner publicly announced by the Moderator; and that while such announcement was being made, ample opportunity was given to any person lawfully present to compare the results so announced with the counter numbers of the machine, whether by viewing the opened counting compartments or by viewing the printed record, depending upon the method used by the election officials for announcing and recording the vote.

We further certify that a duplicate of this Moderator's Return, properly signed, was placed inside one of the voting machines, after which the doors concealing the counting compartments of the machines were locked, and the keys properly labeled with the number of the machine, which keys were then placed in the custody of the Moderator to be delivered with a duplicate of this Moderator's Return, properly signed, to the Municipal Clerk.

We further certify the following numbers:

l. Total number of names on the official check list.

m. Total number of names checked on the official check list as having voted by absentee ballot.***

n. Total number of names checked on the official check list as having voted by machine (in person)**

o. Total number of names checked on the official check list as having voted. (m+n).

Registrar, Deputy or Assistant Registrar Llor Registrar, Deputy or Assistant Registrar Che Checker

^{*}Not applicable in a primary.

^{**}Where central counting designated, the head moderator and not the polling place moderator or central counting moderator is responsible for publicly declaring the result of the absentee

^{*}Not applicable to polling place officials if central counting designated — polling place officials record "0".

^{*}If the number checked on the official check list as having voted by machine (in person) does not equal the total number on the public counter after polls close — the total on the bottom of column k. — (less the total from column g., if applicable,) attach a memorandum explaining the discrepancy.

CERTIFICATE OF ABSENTEE BALLOT COUNT

TO BE COMPLETED AND SIGNED BY MODERATOR AFTER 12 P.M. COUNTING, 6 P.M. COUNTING (optional) AND AGAIN AFTER 8 P.M. COUNTING.

I hereby certify that the absentee ballot vote set forth in this Return for each candidate and for and against each question* is correct and that the following numbers are true and accurate according to the worksheets signed by the absentee ballot counters.
